Title: Registered Nurse & Medical Record Review Specialist

Location: New York City Area

Summary

Experienced Registered Nurse and Medical Record Review Specialist with extensive background in fertility treatment coordination, medical record analysis, and patient education. Skilled in reviewing complex medical histories, streamlining patient care processes, and ensuring compliance with FDA regulations. Recognized for enhancing clinic efficiency and reducing patient costs while maintaining a high standard of care.

Professional Experience

Leading Reproductive Health Organization

New York City Area

Registered Nurse, Medical Record Review Specialist

- Reviewed and summarized patients' past fertility treatments and comprehensive medical histories to maintain accurate patient records.
- Conducted input of previous valid testing and fertility protocols, enabling patients to avoid unnecessary retesting and accelerate treatment initiation.
- Optimized patient costs and clinic revenue by improving the efficiency of medical record reviews and accelerating treatment readiness.
- Performed extensive histories and FDA screenings of egg donors, sperm donors, donated embryos, and surrogates for program eligibility.

Fertility Services Provider

Chicago Area

Registered Nurse, Third Party Reproduction Nurse Coordinator

- Oversaw patients undergoing hormone treatments with ultrasound monitoring, blood draws, and protocol education.
- Conducted intrauterine inseminations, assisted in procedures, and maintained a sterile environment per FDA regulations.
- Coordinated complex cycles involving surrogates, donors, and recipients while ensuring adherence to confidentiality protocols.
- Educated clients on self-injectable medications, cycle schedules, and regulatory requirements for third-party reproduction.

Prominent Reproductive Medicine Center

Los Angeles Area

Registered Nurse, Third Party Reproduction Nurse Coordinator

- Provided patient monitoring, performed intrauterine inseminations, and facilitated procedures within strict regulatory frameworks.
- Coordinated treatment cycles and conducted eligibility screenings for egg donors, surrogates, and known donors.
- Promoted cross-team communication between agencies, doctors, and patients to streamline care.

Healthcare Group - Women's Health Division

Greater Chicago Area

Registered Nurse, Fertility Women's Health Nurse

- Supported patients through fertility diagnostic testing, treatment plans, and IVF cycles.
- Conducted patient consults, educating them on treatment protocols, medications, and procedures.
- Maintained precise records and empowered patients throughout their treatment journeys.

Leading Medical Center

Greater Chicago Area

Registered Nurse, Neonatal Intensive Care Unit

- Delivered Level III intensive care to neonatal patients, promoting family-centered care and supporting parents in newborn care.
- Provided breastfeeding support and education, and contributed as a member of the NICU Loss Committee.
