

Talent ID: 49327

Title: Fertility Professional and Embryologist

Location: Los Angeles, USA

Summary

A highly skilled fertility professional with expertise in clinical embryology, andrology, and assisted reproductive technology (A.R.T.). Demonstrates a multi-faceted approach to fertility care, focused on technical proficiency, patient-centered service, and advancing the field of reproductive medicine.

Professional Experience

Senior Clinical Embryologist

Fertility A.R.T. Medical Group

Location: Greater Los Angeles Area, USA

Performed all responsibilities of a senior embryologist, including technical embryology and micromanipulation techniques, cryopreservation, and managing gamete transport and disposition. Worked closely with physicians to report on cases and ensure optimal patient outcomes.

Embryologist

Fertility Care Partners

Location: Greater Los Angeles Area, USA

Handled all aspects of clinical embryology and andrology, such as semen analysis, sperm and embryo cryopreservation, and inventory management. Specialized in micromanipulation techniques for embryo development.

Per Diem Embryologist

Location: Greater Los Angeles Area, USA

Provided part-time embryology support, assisting with daily operations and clinical procedures as required.

Surrogate Case Coordinator

Surrogacy Services

Remote

Coordinated surrogate cases, ensuring smooth communication between all parties involved and managing logistics for fertility treatments.

Education

M.S., Clinical Embryology and Andrology

Institution: Eastern Medical School

Specialized in clinical embryology and andrology.

B.S., Animal Science

Institution: State University

Focused on animal science with a particular interest in reproductive biology and genetics.
