- Conducted microbiological investigations related to reproductive health.
- Collaborated with medical staff to ensure optimal laboratory practices.

---

## Education

### **Master of Philosophy (MPhil)**

Microbiology

University of Science and Technology, Greater Lahore Area

Feb 2019 – Feb 2021

*Research Topic: Investigation of microbiological effects on reproductive health.*

### **Bachelor of Science (BSc)**

Microbiology

University of Science and Technology, Greater Lahore Area

Oct 2012 – Dec 2016

### **Intermediate (F.Sc Pre-Medical)**

Secondary Education Board, Greater Lahore Area

Sep 2010 – Sep 2012

### **Matriculation**

Secondary Education Board, Greater Lahore Area

Apr 2008 – Aug 2010

---

## Certifications

- Basic Course in Reproductive Medicine
- Advanced Course in Reproductive Medicine
- Certificate in Assisted Reproductive Technology (ART)

---

## Skills

- Semen Analysis and Preparation
  - Embryo Transfer and Vitrification
  - Quality Control and Laboratory Management
  - Advanced Reproductive Technologies (ART)
  - Patient Counseling and Care
  - Sperm DNA Fragmentation Analysis
-

## **Languages**

- English
- Urdu
- Punjabi

---

## **Membership**

- Member of relevant professional associations in the field of embryology and reproductive health.

---

## **Areas of Interest**

- Advancements in reproductive technologies
- Microbiological research in reproductive health

---

## **Publications & Research**

- Research on microbiological impacts on semen quality (details generalized).
