

Candidate ID: 43527

Title: Senior Embryologist & Team Leader

Location: Sydney, Australia

Summary

A highly experienced senior embryologist with a proven track record in assisted reproductive technology (ART) and laboratory operations. Skilled in all aspects of embryology and andrology, including IVF, ICSI, and cryopreservation techniques. Strong leadership abilities, with experience training and supervising laboratory staff, managing quality assurance, and coordinating logistics. Dedicated to maintaining high standards of care and compliance in fertility treatments.

Employment History

Team Leader & Senior Embryologist

Fertility Center, Greater Sydney Area, Australia

2024 - Present

- Performed standard embryology and andrology procedures, including egg collection, IVF, ICSI inseminations, and embryo transfer.
- Led a team of embryologists, overseeing lab operations and staff training.
- Managed laboratory inventory, coordinated equipment maintenance, and prepared for regulatory audits.
- Collaborated with external medical teams to coordinate patient care.

Embryologist

Fertility First, Greater Sydney Area, Australia

2022 - 2024

- Competent in all routine ART practices: oocyte collection, sperm preparation, embryo grading, and cryopreservation.
- Mentored junior staff, managed local and international gamete and embryo transport, and facilitated quality control procedures.

Embryologist & Andrologist

Fertility Clinic, Greater Warsaw Area, Poland

2020 - 2022

- Conducted semen analysis, sperm preparation, and embryo culture.
- Handled IVF procedures, including ICSI, embryo transfers, and cryopreservation.
- Coordinated gamete matching and intrauterine insemination using donor sperm.

Safety Data Specialist (Pharmacovigilance)

Global Pharmaceutical Company, Greater Warsaw Area, Poland

2017 - 2018

- Managed reports of adverse events, processing data for regulatory compliance.

Education

Master's Degree in Laboratory Medicine

University in Greater Warsaw Area, Poland

2011 - 2016

- Thesis focused on hematopoietic precursor cells from fetal heart tissue.
- Experience with tissue sample preparation, cell culture, and immunohistochemical analysis.

Certifications & Memberships

- Certified Medical Laboratory Scientist (CMLS)
- Australasian Professional Acknowledgment of Continuing Education (APACE)
- Member of ESHRE, FSA, SIRT, and ASPIRE

Skills

- ART Techniques: IVF, ICSI, embryo culture, cryopreservation, laser-assisted hatching
- Quality Assurance: Laboratory compliance, equipment maintenance, competency tracking
- Software Proficiency: Microsoft Office, Salesforce, NetSuite, laboratory management software
- Communication: Team leadership, staff training, patient coordination
