

Talent ID: 74819

Title: Certified Genetic Counselor

Location: Los Angeles

Summary

Certified Genetic Counselor with an MS in Human Genetics and Genetic Counseling. Experienced in a range of genetic counseling services, including oncology, prenatal, pediatric, and neurology. Proficient in telehealth services, EMR systems, patient education, and counseling on complex genetic conditions. Skilled in program leadership, student training, and LGBTQ+ patient care. Recognized for a strong commitment to patient support and advocacy.

Professional Experience

Genetic Counseling Program Leadership Intern

Graduate Institute

Led program initiatives, including the development of clinical rotation systems and facilitation of student training.

Oncology Genetic Counseling Intern

Medical Center

Delivered telehealth oncology genetic counseling services, including full patient sessions, risk assessment, variant interpretation, and test result disclosures. Attended tumor boards and performed benefits investigations.

Pediatric Genetic Counseling Intern

Medical Center

Provided both telehealth and in-person pediatric genetic counseling, including risk assessments and variant interpretations. Collaborated with medical geneticists and used various genetic databases for patient assessments.

Prenatal/Preconception Genetic Counseling Intern

Medical Center

Counseled patients on prenatal and preconception genetic conditions. Offered risk assessments, disclosed test results, and provided psychosocial support.

Neurology Genetic Counseling Intern

Medical Center

Specialized in neurology-related genetic counseling, providing patient sessions for conditions such as ALS and muscular dystrophies. Led discussions on DNA banking and researched clinical trials for patients.

Patient Care Technician

Healthcare Solutions

Administered daily treatments, monitored patient progress, and managed documentation for insurance and disability purposes. Coordinated with other healthcare facilities and provided psychosocial support.

Private Tutor and Nanny

Self-employed

Taught high school and undergraduate biology and genetics. Provided care for children with medical, behavioral, and educational needs.

Graduate Medical Education Operations Assistant

University-affiliated Hospital

Coordinated hospital operations and assisted in onboarding and orientation of new physician residents and fellows.

Lab Assistant

Therapeutics Laboratory

Executed laboratory procedures, maintained sterilization protocols, and supported the purchasing system for laboratory materials.

Education

MS Human Genetics and Genetic Counseling

Graduate Institute

Capstone: Developed curriculum for LGBTQ+ inclusive patient care.

BS Conservation Biology

Public University

Minor: Health and Humanities
