

Talent ID: 58872

Title: Certified Genetic Counselor & Program Coordinator

Location: Tampa Bay, USA

Summary

Experienced genetic counselor with a robust background in prenatal counseling, teratogen information specialization, and program coordination. Skilled in patient communication, multidisciplinary team collaboration, and educational program development. Known for leading initiatives in exposure risk assessment and engaging in multi-center research collaborations.

Professional Experience

Health Network, Prenatal Care Center

Genetic Counselor

2018 - Present

- Provide comprehensive prenatal genetic counseling services, with a focus on maternal and fetal genetic indications.
- Deliver teratogen counseling services through specialized exposure clinics, managing patient and provider communication.
- Collaborate in a multidisciplinary setting to support pre- and post-delivery patient care.

Non-Profit Organization, Teratogen Information Service

Program Coordinator and Teratogen Information Specialist

2018 - Present

- Design and manage data collection, quality assurance, and educational materials for counseling on pregnancy and lactation exposure risks.
- Facilitate recruitment for national Pregnancy Studies and oversee program's social media outreach.

Genetic Counseling Program at Leading Health University

Associate Program Director

2023 - Present

- Coordinate programmatic elements, including instructional planning, curriculum design, and student progress evaluation.
- Former Director of Fieldwork Training: Managed student clinical placements, supervised fieldwork evaluations, and developed relationships with rotation supervisors.
