

Candidate ID: 48267

Title: Genetic Counselor

Location: Los Angeles, USA

Summary

Experienced Genetic Counselor with a strong background in prenatal, fertility, and specialty genetic counseling. Skilled in managing complex genetic cases, including risk assessment, counseling, and interdisciplinary collaboration. Expertise in patient education and psychosocial counseling across various genetic indications. Dedicated to enhancing patient understanding and navigating them through complex genetic testing processes. Experienced educator and presenter at professional seminars and conferences.

Professional Experience

Genetics Education Consultant

Academic Institution, Greater San Francisco Bay Area

Designed student workshops to integrate scientific principles into clinical practice. Delivered guest lectures on genetics topics, including prenatal genetics and ethics. Developed a comprehensive content review exam for genetic counseling certification.

Perinatal Genetic Counseling Rotation

Medical Center, Greater San Francisco Bay Area

Managed all aspects of preconception and prenatal genetic counseling cases, including case preparation, risk assessment, test ordering, and result disclosure. Provided immediate education and counseling following the identification of ultrasound anomalies and addressed a wide range of genetic indications.

Fertility & A.R.T. Genetic Counseling Rotation

Fertility Clinic, Greater San Francisco Bay Area

Counseled individuals through IVF cycles, focusing on genetic implications and testing. Collaborated with genetic testing labs, interpreted complex results, and participated in weekly journal clubs and case conferences on reproductive health.

Specialty Genetic Counseling Rotations

Healthcare Institution, Greater San Francisco Bay Area

Provided pre- and post-test counseling for various genetic conditions, including inherited cardiac disorders, cancer predispositions, and pediatric syndromes. Analyzed and disclosed genetic results, collaborating with multidisciplinary teams and presenting cases at professional conferences.

Clinical Genomics Rotation

Genomics Laboratory, Greater San Francisco Bay Area

Classified clinical variants through sequence analysis and public database review. Drafted genetic reports, engaged with genetic counselors, and explored complex testing situations including familial variant resolution.

Prenatal Diagnosis Center Assistant

Healthcare Facility, Greater San Francisco Bay Area

Compiled patient records for prenatal screening programs, tracked service utilization, and ensured timely data entry for state systems.

Education

PhD in Human Genetics

Research University, Greater Los Angeles Area

Investigated the genetic and epigenetic regulation of complex human traits through bioinformatics and statistical genetics.

Masters in Genetic Counseling

Academic Institution, Greater San Francisco Bay Area

Conducted comprehensive research on the role of genetic counselors in medical education.

Bachelors in Human Biology

Academic Institution, Greater San Francisco Bay Area
